## Live the perfect pool experience responsibly

A more sustainable pool is one that incorporates key features and equipment to achieve a lower environmental impact, by significantly reducing the consumption of resources- water, energy and consumables, and being viable in terms of maintenance cost and return on the initial

investment. From variable speed pumps that use less energy to water sanitisers that consume less chemicals to automatic covers that prevent water evaporation and reduce thermal loss, Fluidra offers a wide range of solutions that contribute to a more sustainable pool.

# Sunbather®

DESIGN • MANUFACTURE • INSTALL • SERVICE

Heating a swimming pool can be a costly process if not managed correctly. Since 1974 Sunbather has developed an award-winning range of Australian-made pool heating solutions to deliver the best result for you and your family.

Our solar systems have been proudly Climate Care Certified with a focus on energy efficiency, while all our heating systems are built to withstand the rigours of our harsh Australian environment.

It takes a lot of energy to heat a pool, so it's essential to lock in that heat while your pool isn't in use. Sunbather offers a wide range of pool cover and roller solutions that are not only great for the environment but look great and save you money too.

Sunbather has a wide range of covers to suit all pool environments. From our flexible fit thermal, premium robust security, stylish hidden or durable winter range we have you covered.

Sunbather Rollers are built here in Australia to the highest standard utilising carefully selected high-grade materials and premium finishes. We offer a wide variety of rollers to keep your cover safely away while maximising space around your pool.

With years of experience and our exclusive pool heating calculator, our team are here to help you make the best informed decision to get the most out of your pool.

## BALANCERS

Just like people, pool water needs balance. This balance provides the basis that your other pool chemicals need in order to work. Unbalanced water can become green or can even damage pool equipment and surfaces, because the chlorine and other chemicals you put in are not having the right effect.

## SANITISERS

The key ingredient in protective products is Chlorine, a common and the most widely used element to purify and eliminate harmful micro-organisms from our drinking water. By adding purifiers to a well-balanced pool, effective protection against bacteria, algae and other harmful micro-organisms can take place. Ensure your pool stays clean by regularly checking the levels of protective products and stabilisers in the water. For even greater protection, use shock treatments regularly. Pool stabilisers guard the purifiers or protective products from UV rays. UV protection is essential simply because without it, purifiers evaporate from the pool.

## Xpress Flex

Xpress Flex is a cutting-edge water testing system that uses advanced lighting and imaging technology to provide fast, accurate, and affordable test results.

The test strips have proprietary reagent pads to enhanced colour reactions and give **results in 60 Seconds!**

### Cut costs and save money with the XF Test Strip Reader!

Say goodbye to expensive water tests and **save up to 90%** on water testing. Each test can cost as little as **50 cents!** This adds up to thousands in savings each year!

### Better for the environment

By switching to test strips, we can also **reduce water testing waste by up to 90%**. With significantly less waste than the alternative, we can reduce our impact on how much plastic goes to landfill.

### The XF can test for:

- Free Chlorine 0-10 ppm
- Total Chlorine/Bromine 0-10 ppm
- pH 6.4-8.4
- Total Alkalinity 0-240 ppm
- Total Hardness 0-800 ppm
- Cyanuric Acid 0-300 ppm
- Salt 0-5000 ppm
- Borate 0-100 ppm
- Copper 0-3.0 ppm
- Iron 0-5.0 ppm (optional)
- Phosphate 0-3000 ppb (not yet available)

### Compatible Software:

- Fluidra Pure Solutions
- Pooltrackr/Fluidium

# CLEANING - ROBOTIC POOL CLEANERS

## EVOLUX iQ™ ULTRA-EFFICIENCY COMBINED WITH INTELLIGENCE

With its **Sensor Nav System™**, the EVOLUX iQ™ robotic range identifies the configuration of your pool to **optimise movements** and cleaning time. The patented cyclone suction guarantees **extremely powerful and long-lasting suction**. Thanks to the patented **Lift System™**, EVOLUX iQ™ is lighter when removing it from the water. Control your cleaner anywhere, anytime through the **intuitive interface** of the iAquaLink™ App. EVOLUX iQ™ is **upgradable** thanks to possible optimisations and automatic remote updates over the air. EVOLUX iQ™ now feature Dual Stage Filtration (150µ/60µ) to capture both small and large debris.

### Packaging Content

- 1 x Robotic Cleaner + Swivel cable
- 1 x eBox or control box
- 1 x Transport and storage caddy
- 1 x Instruction manual & warranty card

### Warranty:

Please visit [www.zodiac.com.au](http://www.zodiac.com.au) for full warranty details.

### PATENTED SENSOR NAVIGATION SYSTEM™

**Smart Navigation System for efficient and customized cleaning**  
Sensor Nav System™ is an embedded feature which enable the robotic cleaners to learn all about each pool and adapt its cleaning in the smartest way.

- Personalised cleaning of each pool
- Recognition and analysis of the pool dimensions and shape to provide with optimized navigation pattern and cleaning time for each pool.
- Built-in pressure sensor allows the cleaner to climb the walls and steadily brush the waterline whatever the depth is.
- Focusing on common dirty areas such as bottom of the walls and flat areas of the pool.

### PATENTED CYCLONIC SUCTION

**Patented technology for powerful cleaning**

Thanks to its unique design, the EVOLUX iQ™ robotic range features Cyclonic Suction: the flow is keeping debris in suspension inside the filter and allows a longer lasting suction while limiting the clogging.

### PATENTED LIFT SYSTEM™

**Patented innovation for easier removal from the water**

The EVOLUX iQ™ robotic cleaner positions itself on the chosen wall and climbs right up to the water line. Then a powerful waterjet propels water from the cleaner when it is lifted. This means that you can remove the robot from the water with 20% less effort.

### SWIVEL

**Avoid cable tangling**

Automatic swivel system prevents cable tangling during cleaner operation in the pool. The cleaner efficiency is optimized and the cable storage is easier. All EVOLUX iQ™ robotic pool cleaners are equipped with a swivel.

### 4-WHEEL DRIVE (4WD)

**Effective cleaning on all surfaces**

Equipped with 4-wheel drive, the EVOLUX iQ™ robotic range adapts to all situations to overcome most obstacles.

### INTUITIVE IAQUALINK™ APP CONTROL

**The power of control at your fingertips**

Smartphone connectivity has now won over every sector, including swimming pools. Thanks to the intuitive iAquaLink™ App, you can remotely operate any EVOLUX iQ™ robotic cleaner and review the progress of the cleaning cycle. Depending on the EVOLUX iQ™ model, different controls are accessible. All EVOLUX iQ™ models can be upgradable thanks to over-the-air updates.

### DUAL STAGE FILTRATION

The EVOLUX iQ™ features dual stage filtration (150µ/60µ) that captures large and small debris with great efficiency. The dual filters ensure all debris is picked up no matter how large or how small it is. The 150µ filter can be used alone or together with the 60µ filter. Other than dual filters, EVOLUX iQ™ can also be operated with single 60µ, 100µ or 200µ filters.

FREERIDER™  
UNLEASHED CLEANING POWER

Freerider™ iQ robotic cleaner is cordless and equipped with a high-power lithium-ion battery offering expert cleaning without intervention. Highly efficient, easy to handle and cable-free, it is remarkably agile and gets into the tightest of corners on all types of pool surfaces. The iAqualink™ application enables greater control and improved monitoring of the battery status.

HIGH PERFORMANCE CABLE FREE DESIGN

Free of its cable, Freerider™ is easy to use on a daily basis and takes up little space. Long life lithium-ion battery. Battery life: 1 full cycle (2 hours 30 mins). Fast charging < 5 hours. Do not expose charger to direct sunlight, rain, or inclement weather.

SUCTION EFFICIENCY

Combining the constant power of its patented Cyclonic Suction with an impressive dual-stage filtration system, the Freerider™ collects all types of debris with ease.

DUAL-STAGE FILTRATION

Two-layer progressive filtration system (150 micron/60 micron) collects both large and small debris. Transparent canister cover and LED makes the collected debris easily visible.

IAQUALINK™ APP CONNECTIVITY

App connectivity gives users two additional cleaning mode option - SMART cycle and Waterline only cycle. App shows - Charging status / End-of-cycle notifications / Water retrieval assistance / Performance optimization via automatic updates.  
\*iAqualink™ App communication is lost underwater.

REAR CONTROL SCREEN

Makes it possible to view the battery charge status, to select the cleaning mode and to launch a cycle.

INNOVATIVE HAND-HELD REMOTE CONTROL

Communicates underwater for easy control and retrieval of the cleaner by activating the Lift System

## DUO-X™

### COMBINED INTEGRATED AGILITY WITH INTELLIGENCE

With new patented Helix shaped brush and compact body, the new Duo-X™ offers integrated agility. Featuring dual stage filtration (150µ/60µ) that is capable of picking up small and large debris, the Duo-X™ is designed to run in all types of pools. With the patented Lift System™ and unique design, the Duo-X™ is capable of expelling water very quickly making it very easy to operate and remove from the water. Duo-X™ has superior wall detection without the need for tilting making it very efficient in covering the pool. For connected model, control your cleaner anywhere, anytime through the intuitive interface of the iAquaLink™ App and also enjoy the benefit of automatic over the air remote updates.

#### INTEGRATED AGILITY

With its embedded smart sensors and its unique design, Duo-X™ offers excellent coverage of the pool and limitless agility. It is, therefore, ideal for all pool shapes and linings.

#### DUAL STAGE FILTRATION (150µ/60µ)

Capture large and small debris with great efficiency. The dual filters ensure all debris is picked up no matter how large or how small, keeping your pool clean. The 150µ filter can also be used on its own.

#### PATENTED CYCLONIC SUCTION

Duo-X™ features patented cyclonic suction that is powerful and long-lasting. Debris is kept in suspension to avoid filter clogging and to maintain the same level of cleaning performance throughout the cycle.

#### PATENTED LIFT SYSTEM™

The Duo-X™ robotic cleaner positions itself on the chosen wall and climbs right up to the water line. Once the robot is removed from the water, it expels water very quickly making it lightweight and effortless. This means that you can remove the robot from the water with 15% less effort.

#### SWIVEL

Reduce the chances of cable tangling. Automatic swivel system prevents cable tangling during cleaner operation in the pool. The cleaner efficiency is optimized and the cable storage is easier. All Duo-X™ robotic pool cleaners are equipped with a swivel.

#### INTUITIVE IAQUALINK™ APP CONTROL\*

Smartphone connectivity has now won over every sector, including swimming pools. Thanks to the intuitive iAquaLink™ App, you can remotely operate selected models of Duo-X™ robotic cleaner and review the progress of the cleaning cycle. Also the connected Duo-X™ are upgradeable thanks to over the air updates.

\*not available in all models.

## CARETAKER™ IN-FLOOR CLEANING SYSTEM

Relax, let the pool do all the work!

Developed in 1972, Caretaker is the original in-floor pool and spa cleaning system. The Caretaker system is custom designed for the unique size and shape of your pool. It is installed to fit flush with your pool floor making it virtually invisible to the eye as it continuously works to keep your pool clean and the water properly circulated to support chemical balance. The Caretaker system replaces vacuum hoses and other stand-alone pool cleaners so your pool area is uncluttered and always ready to be enjoyed.

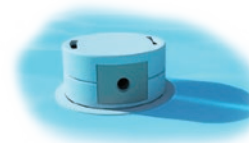

### MAXIMUM CLEANING COVERAGE

With cleaning heads that rotate through 18 positions in a full 360°, the powerful Caretaker system efficiently rids the pool of debris, ensures complete and reliable coverage, and minimizes the time required for maintenance.

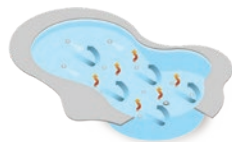

### ADJUSTABLE AND FLEXIBLE

Six nozzle sizes maximize the flow needed for select areas and allow customized flow for steps, benches, and swim outs. Our unique collar design provides flexible positioning of heads for maximum cleaning power.

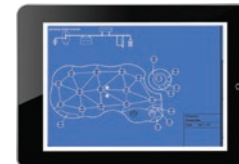

### SUPERIOR CIRCULATION

Most pools circulate water from surface inlets, resulting in loss or uneven distribution of valuable chemicals, heat and water. Poor circulation can also contribute to algae and bacteria growth. Caretaker™ prevents this type of growth by optimizing the distribution of chemicals and heat, and circulation of clean water throughout the entire pool.

### FREE CUSTOM DESIGN SERVICE

Each Caretaker system is custom designed for the unique size and shape of your pool. Our trained technicians will provide a certified blueprint free of charge. The blueprint provides all the information to order and install the Caretaker system.

### ENERGY EFFICIENT

While a Caretaker system ensures a cleaner, healthier pool, it also uses less energy, chemicals and equipment runtime, significantly reducing annual maintenance costs.

## CARETAKER ORDERING GUIDE

### Step 1: Send in your A4 Pool Plan along with a completed Caretaker Design fact Sheet

A trained technician will provide a free custom Caretaker Certified Pool Design and a copy of a Caretaker Order form.

### CARETAKER™ REVOLUTION - 6 PORT VALVE

We call the all-new 6-port in-floor pool cleaning valve - Revolution. With its revolutionary design and unique functionality, the in-floor pool cleaning industry will never be the same.

#### EASY AND SIMPLE:

Revolution features incredible, hassle-free internal accessibility thanks to a single band clamp allowing for quick access to the easily replaceable, one-piece gear cassette. We had service technicians in mind when designing Revolution as our easiest and simplest in-floor cleaning valve to service.

#### NEW LEVELS OF EFFICIENCY:

With the new and innovative design of the QuickFlow™ Hydraulic Shifting System, Revolution maximizes full-pressure cleaning time with shorter and smoother zone shifting. The result, more debris being flushed out of the pool with reduced head loss. Revolution also eliminates dead head and is low pressure compatible.

- Larger 2" diameter ports
- Longer, full-pressure, cleaning time on each zone
- Little to no head loss
- Compatible with low speed pumps

#### ULTIMATE DURABILITY:

Featuring an all-new design and industry-exclusive technologies, Revolution is built for ultimate durability. Designed and tested in-house, Revolution passed the most rigorous tests we have ever conducted. This is the most durable in-floor pool cleaning valve we've built. Ever.

- Ultra-durable valve plate with ball bearings
- Extra thick gears
- Dual-reinforced support shafts
- New, strong hydraulic drive system

#### Warranty:

## ZODIAC TRI-XO CROSSOVER MINERAL AND SALTWATER CHLORINATOR

The Zodiac TRI-XO CrossOver provides great flexibility and performance. With inbuilt software that has been designed to configure to either traditional salt chlorination or CrossOver to using mineral salts.

You can CrossOver at anytime, so even if you begin using salt you can reset the software and reconfigure to use minerals. TRI-XO was designed in Australia to take on the harsh climate and environment of the pool area and provide great reliability year after year. It is packed with features to make looking after your pool easier and more affordable, plus choose salt or minerals to suit your preference.

### Enhance your bathing experience:

Zodiac recommends using TRI-XO with our mineral salt called Element. This is a magnesium rich salt blend making your bathing experience more enjoyable. In some cases it may be necessary at start-up to use Element Activate mineral salts. Seek advice from your pool care professional about converting your pool.

## pH PERFECT

To maintain pool health, the most essential element is pH balance. Accurate sensors provide real time feedback to ensure perfect sanitation and balance of your pool whenever the filtration circuit is operating.

Over-feed protection prevents too much acid being added to the water. Zodiac's unique 'proportional feed system' is the fastest and most efficient way to reach the required set point without wasting excessive solution. Installation is easy with the Zodiac POD housing both sensors and feed point. Ideal to use with any saltwater chlorinator.

### Key Product Features & Benefits:

- pH Perfect will keep your pH level reliably constant
- pH Perfect can be used to deliver either liquid pH up or pH down depending on your pool's needs
- pH Perfect is suitable to combine with any sanitiser Automatic cleaning cell

### Product Specifications

- Power consumption: 9 W
- Maximum dispense rate: 1.5 L/h
- Maximum back pressure: 1.5 bar
- pH control range: 0.0 - 14.0

## INTELLIHEAT CONTROLLER

To keep the pool always at the right temperature even outside of normal filtration hours, add an Intelliheat controller. This simple plug in controller will take over the running of the pump to keep your pool at the optimal temperature. It does this by activating the pump every so often to detect current water temperature and if it needs additional heat will activate the heat pump, ideal in situation if you decide to go for a midnight dip. There are 2 models available, one that works with an integrated pump, or if you have an independent heater circulation pump.

## CRYSTAL CLEAR GLASS FILTER MEDIA

Zodiac Crystals are a type of filtration media that can be used as a direct replacement for sand or zeolite. Commonly referred to as glass media, it has environmental and sanitary benefits over traditional silica/sand media. Zodiac Crystal comes in two grades: coarse and fine. The coarse crystals should be placed into the bottom of the filter to ensure no clogging occurs whilst the fine crystals should then be added above allowing the water to circulate through the filter tank for maximum efficiency.

### Key Product Features & Benefits:

- More effective filtration
- Environmental benefits. Saves water and energy
- Health benefits

### Warranty:
