POOL SYSTEMS IS A
POOLCORP COMPANY

WHO ARE POOLCORP?

POOLCORP is the world's leading wholesale distributor of swimming pool equipment, parts and supplies, and related outdoor living products. The company operates approximately 440 locations worldwide with more than 6,000 employees through three primary distribution networks: SCP Distributors LLC, Superior Pool Products LLC, and Horizon Distributors Inc.

With Sales Centers located across North America (US, Canada, and Mexico), Europe (France, UK, Spain, Portugal, Italy, Belgium, Germany, and Croatia), and Australia, we distribute a broad range of products to roughly 125,000 customers around the world, serving four principal markets:

- Re-modelers and builders installing new swimming pools and refurbishing existing pools
- Independent specialty retail stores selling outdoor living products to consumers
- Service companies performing pool and hot tub maintenance and repair
- Contractors serving in the irrigation and landscape maintenance markets

POOL SYSTEMS ARE
AUSTRALIA'S LEADING DISTRIBUTOR

WHO ARE POOL SYSTEMS?

Within the POOLCORP group, SCP are the distribution arm internationally, and within that arm sit Pool Systems, the Australian location for POOLCORP & SCP Distributors.

Pool Systems was founded in 1984 with the goal of providing an emerging pool and spa industry with a one stop solution for pool and spa equipment. Originally operating out of North Brisbane with just one location, Pool Systems has grown into a national business with six locations and more than 80 employees.

Pool Systems serves more than 5,500 customers, consisting of a variety of industry professionals: pool shops, pool and spa retailers, wholesalers, service technicians, pool builders and franchise groups.

With access to the largest range of pool equipment from the biggest brands in the world, Pool Systems has forged relationships with some of the industry's most trusted professionals.

Internationally, Pool Systems is able to leverage incredible buying power from international manufacturers to ensure that savings are passed on to our customers. With a tested range of products from other markets and a mix of Australian-made products, Pool Systems is able to supply solutions for every requirement. Our procurement team works tirelessly to source the latest innovative pool and spa products and create new and exciting offers for our customers.

Dear Valued Customers,

As we usher in the new pool season, the entire team at Pool Systems extends our warmest wishes and sincere thanks for your continued partnership and trust in our products and services. Your support is the cornerstone of our success, and we are dedicated to providing you with exceptional solutions to meet your business needs.

We are thrilled to present this season's catalogue, featuring a curated selection of our diverse product range. This catalogue represents just a glimpse of what we have to offer, with many exciting new products set to be introduced in the coming months. Our commitment to innovation and excellence drives us to continually expand and enhance our offerings.

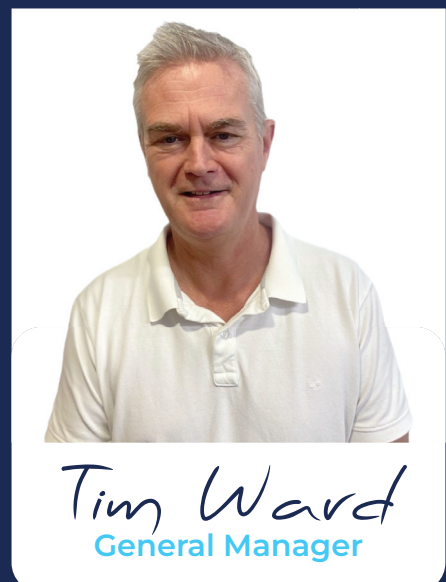

We are also excited to announce the launch of our new online sales platform, POOL360. Designed to deliver a best-in-class online ordering experience, POOL360 will provide seamless access to our full product range, making it easier than ever to browse and purchase the items you need.

We would like to take this opportunity to extend our gratitude to our key suppliers for their unwavering support and collaboration. Their contributions are invaluable in helping us maintain the high standards our customers have come to expect. Additionally, we are immensely proud of our dedicated team, whose hard work and commitment have been instrumental in preparing for this season.

Above all, we extend our heartfelt thanks to you, our loyal customers. Your continued trust and support inspire us to strive for excellence in everything we do. We are here to support your business and ensure a successful and prosperous pool season.

Thank you for choosing Pool Systems. We hope you enjoy our Season Catalogue and look forward to serving you.

Warm regards,

MAGNUM REPLACEMENT CARTRIDGES

All cartridges are manufactured by Magnum from high-quality genuine Remay 40z spun woven polyester fibre. This special fibre prevents dirt from becoming embedded in the material which makes cleaning fast and simple.

Engineered for strength and durability, Reemay media is made of continuous filaments and will not ravel or fray; in addition, it has no binders to dissolve and weaken the media during use.

EVOHEAT J-BOX

It's incredibly expensive to buy both a filter and pump, so why not combine the costs, save yourself money and reduce your running costs.

Simple to run and affordable for it's entire lifetime - the EvoHeat J-Box makes complete sense! The J-Box allows either the heater OR the chlorinator to turn the water pump on so each device can run independently of the other. Conversely, the J-Box allows both the chlorinator and heater to be running at the same time.

Swimsafe®

A high-angle, top-down view of a swimming pool. In the center, a person is swimming underwater, their body visible through the clear blue water. In the foreground, on the pool deck, there is a large, wide-brimmed straw hat with a light-colored band. Next to it is a small, round, dark-colored bag and a pair of sunglasses. A green palm frond is visible in the bottom left corner. The text 'MAINTENANCE EQUIPMENT' is overlaid in large, bold, yellow letters with a dark blue outline at the bottom of the image.

BLACK SPOT 900

- Contains 900g/kg available chlorine as TriChloroisocyanuric Acid, making it highly concentrated and effective.
- Exclusively for use in pebblecrete, white plaster & tiled pools.
- Granules can be directed at affected areas, dissolving slowly to maintain prolonged contact, effectively killing black spot and blue-green algae. Non-metallic and not affected by high chlorine levels; the low pH enhances performance.

CODE	MODEL	DESCRIPTION

EASY CARE POOL CHEMS

- ▶ **Scaletec Plus:** The first pourable surface, tile, and equipment descaler that works without acids, preventing and removing iron stains and hard water buildup throughout pool surfaces and equipment. Benefits: Delivers fast cleanup in 2-4 weeks, serves as a superior winter descaler, and protects against stains year-round. Non-acidic, non-staining, and eco-friendly formula removes calcium buildup without scrubbing or draining.
- ▶ **Beautec:** A new scale and stain product that controls all mineral buildup on pool surfaces and equipment without acids or phosphates, offering 12 months of protection per 10,000 gallons. Benefits: Protects salt cell chlorinators without acid cleaning, controls calcium (1000 ppm), metals, and silicates (300 ppm), salt pool friendly, and contains no harmful additives.
- ▶ **Startup-Tec:** Essential pool startup treatment that prevents and removes calcium and metal staining, enhances water clarity, and prevents mottling discoloration on all pool surfaces. Reduces plaster dust by 90%-100% and minimises brushing when used correctly. Benefits: Prevents calcium and metal staining, acts as a powerful sequesterant to remove metals, and improves water clarity and color. Note: Add at initial filling; higher dosages recommended for hard water, well water, and colored finishes.
